This Certificate is Proudly Presented to:

A Fireman

The world has yet to see the power and value of true manhood, authentic manhood, godly manhood. This is God's plan for the family, a man who knows who he is from God's perspective; a man courageous enough to follow Christ, and reflect HIS character in the Earth . This is our time men of God to show for God's official dignity in the earth. We are endowed with the grace given to us by our Creator to restore the family and lift up the standard. This is our time, and we seize the opportunity to step out and to stand up. We are God's official dignity in this nation; and in world. We are not ashamed to be Firefighters in the Kingdom of God.
